WAVE OF CHANGE

Wave of Change is Iberostar's pioneering responsible tourism movement to move towards a circular economy promote the responsible consumption of seafood and improve coastal health. We define circular economy as the restorative and regenerative sourcing use and end-use of the water, energy and products in our built environment-our hotels. We do so by sourcing from eco-certified or rated farms or fisheries that are in improvement projects. We do so through the discovery, the protection and restoration of seagrasses, coral reef, mangroves and other ecosystems in the places where we operate.
